LYNX
GLASS

LYNX Glass is a Canada-based manufacturer specializing in premium-quality glass packaging solutions. With a strong commitment to excellence, LYNX Glass combines advanced manufacturing techniques with refined craftsmanship to deliver products that meet the highest industry standards.

Every piece is designed with precision, durability, and aesthetic appeal in mind—making LYNX Glass a trusted partner for brands seeking elegant and reliable glass packaging.

Backed by a highly skilled and experienced team, the company ensures strict quality control at every stage of production. From raw material selection to final finishing, their staff maintains consistency, purity, and perfection in every product.

Mission

To manufacture world-class glass products that enhance brand value through superior quality, innovation, and reliability—while maintaining uncompromising standards in every detail.

Vision

To become a globally recognized leader in premium glass manufacturing, known for exceptional quality, advanced design, and sustainable production practices.

GLASS

THAT GIVES PREMIUM VIBE

LYNX

GLASS

Specification

Capacities	50, 100, 200, 375, 750, 1000 and 1750 ml
Material	Super Flint glass
Finishes	Bar top, T-cork, perfume finish
Decoration	Matte, frosted and electroplated effects
Closures	Supplied alongside bottles
Custom work	Bespoke moulds opened to your design

HOW ORDERING WORKS

1. Design & sample review

Share your bottle design and specs — we confirm capacity, finish and closure details with you.

2. Mould & production

We open a custom mould to your design. First orders take 45–60 days.

3. Delivery & repeat orders

Once running, we hold stock so repeat orders — and smaller batches — ship in 15–20 days.
